

# A guide for future teachers through Antwerp

## A-city Teachers

5 students of AP college  
+ the city of Antwerp  
+ Onderwijstalent  
Develop a phone application  
to attract future teachers to  
Antwerp.

## Attract teachers

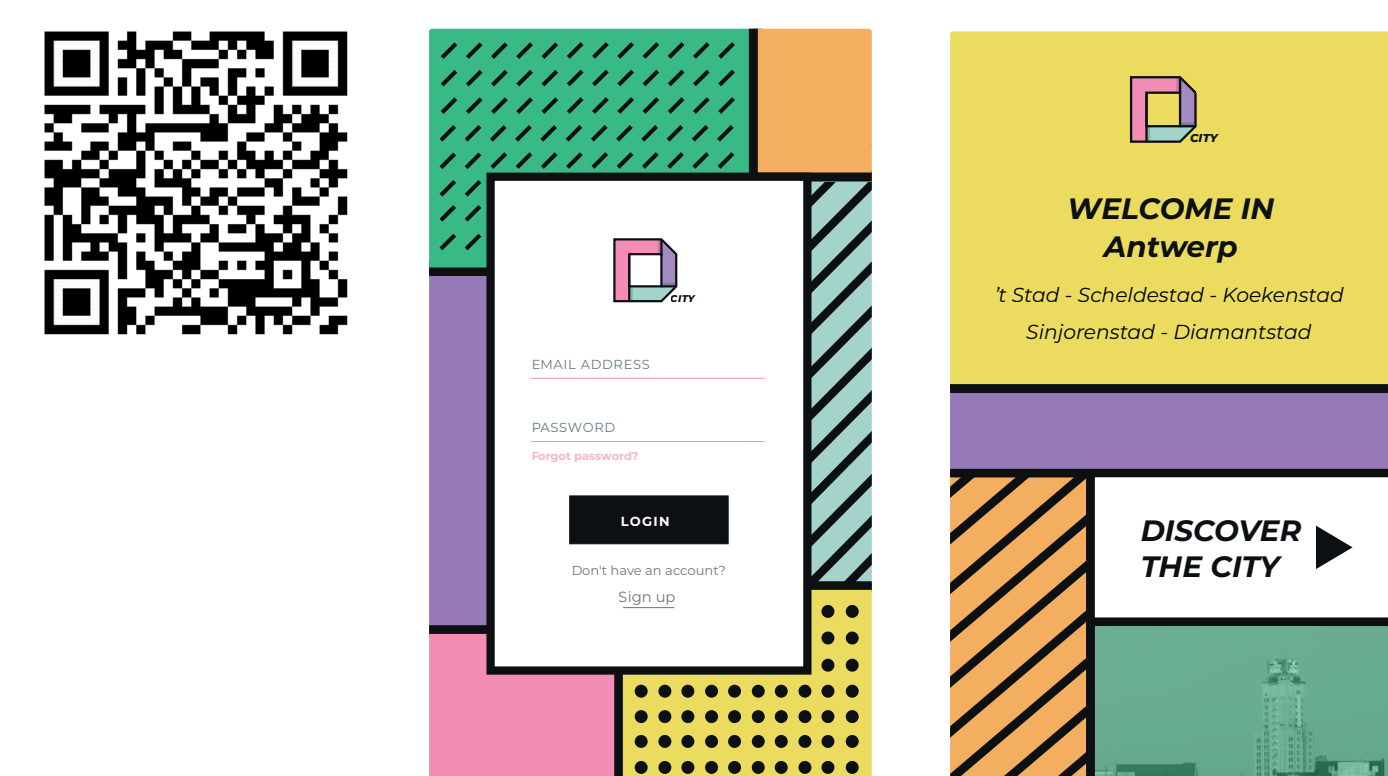

Antwerp is an interesting place to work.  
There are major challenges such as multi-culturalism, languages, different social and financial backgrounds. Teachers need to handle these challenges in a creative way. This can feel intimidating but it doesn't have to be. There are many organizations specialized to support teachers.

## The game

The game shows what Antwerp has to offer to teachers through active learning. Players walk around in certain areas in Antwerp. During this walk the players receive questions and assignments to educate them about organizations that support teachers and the experience of teaching in Antwerp.

## View prototype

## Players

- Future teachers
- Students in the teacher training department
  - Other people who want to become a teacher

## Managing the game

Students manage the game. They arrange a back office, create new game functions, update content, establish contact with stakeholders and invite new players.

## Goal

- Excite future teachers to take on the challenges related to a metropolitan city.
- Change stereotypes and show opportunities. Teachers make a difference!
  - Show which organisations exist to support teachers.
  - Stimulate to think out of the box and to come up with new ideas.
